Philosophy on Juvenile Justice

J u d g e T o d d K o h l r i e s e r

6

- The Court shall be responsible for providing fairness and equality to all persons who enter the legal system. These are principles that helped in the establishment of our great nation, and which continue today in a free democratic society.
- Once an individual enters the justice system and has been found to have violated the law, he or she must be held accountable for the wrong that has transpired, by fair and measured punishment.
- The Court shall strive to rehabilitate juvenile offenders, while also ensuring the safety of our community.
- The goal of the Allen County Juvenile Court shall be to craft the appropriate punishment and rehabilitative services, through the utilization of community resources and programs, in an effort to return the juvenile as a productive and contributing citizen to our community.
- The staff of the Allen County Probate and Juvenile Court shall endeavor to perform their duties with respect and professionalism for all with whom they come into contact, whether victim, offender, parent, professional, or witness.

The Purpose for Probate Courts

Probate: from the Latin meaning “to prove”

- The Ohio Constitution of 1851 provided that probate courts be established as separate, independent courts with jurisdiction over the probate of wills and supervision of the administration of estates and guardianships. In 1968, under the Modern Courts Amendment of the Ohio Constitution, probate courts became divisions of the courts of common pleas. Probate courts also have jurisdiction over the issuance of marriage licenses, adoption proceedings, determination of sanity or mental competency, and certain eminent-domain proceedings. Probate judges may perform marriages and may charge a fee for the service.
- According to the Ohio Association of Probate Judges, the Ohio Revised Code places over two hundred separate duties on the Probate Court. In general, the function and purpose of the Probate Court is to perform those powers and duties authorized by the Constitution of the State of Ohio and Chapter 2101 of the Ohio Revised Code. The types of cases handled by the Probate Court (the Court's jurisdiction) are specified in Ohio Revised Code Section 2101.24.

Residential Programs & Services

Juvenile Detention Center

Our JDC Mission

“In service to the citizens of Allen County, Ohio and under the auspices of the Juvenile Division of the Common Pleas Court;

the Allen County Juvenile Detention Center is dedicated to providing a safe, secure, and sanitary facility for the care of delinquent children;

and to the delivery of helpful interventions and rehabilitative services delivered by a compassionate and respectful team of well trained professionals.”

Detention Center History

- 2019 to Present:** Construction began on the current 25 bed facility located at 3050 N. Cole Street in Lima, Allen County, Ohio on April 23, 2018 and on August 28, 2019 the facility was dedicated as the Allen County Juvenile Detention Center. Constructed by the Peterson Construction Company in partnership between the Allen County Juvenile Court and the Allen County Board of Commissioners; in recognition that at times, for purposes of providing a means by which to ensure public safety, it is sometimes necessary to separate youthful offenders from the community and that when doing so, given the juvenile justice system does not deal with fully developed adults, keeping the child in a local facility provides the best opportunity for family engagement, support, and successful rehabilitation. With this facility the Juvenile Division of the Allen County Common Pleas Court has been given the means by which to provide meaningful interventions, structured programming, and quality educational opportunities in a holistic, sanitary, safe, and secure environment and thus is better enabled to reach its goal of successfully returning the children placed in its care to the Lima-Allen County community as both productive and contributing citizens.

- 1973 to 2019:** The first Juvenile Detention Center in Allen County, Ohio was dedicated “The Walter J. Roush Rehabilitation Wing” on April 6, 1975 as a 33 bed secure detention and residential treatment facility in memory of the late Walter J. Roush, who was born February 21, 1927 in Lima, Ohio. On October 13, 2011 the facility was rededicated the “Walter J. Roush Juvenile Detention Center.” Mr. Roush graduated from Lima Central High School; attended Ohio Northern University for three years in the field of Education; served seventeen years at Baldwin Lima Hamilton as a Sales Product Supervisor; and, was veteran of the United States Navy, having served two years in the South Pacific. Mr. Roush came to the Juvenile Court of Allen County, Ohio as a Probation Officer on February 17, 1964 and was subsequently made Chief Probation Officer under the late Judge Paul J. Rockey, serving in that capacity through the remainder of his years with the Court until his death on December 30, 1968. Mr. Roush was the privileged husband of Eleanor L. Casey and proud father of two children, Brad and Bretta. Recognized as a leader in the community for his untiring efforts in counseling, advising, and working with the youth of the community he became know as a “Friend of the Boy.” Mr. Roush believed in young people, lived with young people, and knew the young people of his day. The Walter J. Roush Juvenile Detention Center operated under the auspices of the Juvenile Division of the Allen County Court of Common Pleas. The facility was part of the David O. Steiner Juvenile Services Center located on 4.1 acres at 1000 Wardhill Avenue in Shawnee Township, Lima; Allen County, Ohio. The Treatment/Detention Center provided sleeping facilities, shower facilities, indoor/outdoor recreational/leisure areas, an educational classroom, administrative offices, and treatment/counseling facilities. The rated capacity was 26 youth in two wings, 17 Detention beds and 9 Treatment beds in a one-story brick and concrete structure constructed in 1973 and opened in 1974.

J.D.C. Programing & Services

Using current research and evidence based programming the Allen County Juvenile Court has adopted a Community Control model that provides prevention, early intervention, diversion, presentence and official probation services.

- **Secured Detention:** Youth may enter detention as the result of being arrested and charged with a delinquency, by order of the court, or by their Probation Officer for failing to comply with the terms and conditions of probation. Youth placed in detention prior to adjudication are given a detention hearing within 24 - 72 hours to determine the need for continued detention pending the next scheduled hearing. Children may only be held in secured detention in accordance with Ohio's juvenile rules of arrest and procedure, for their own protection from an immediate threat, for the protection of other persons and/or their property, if they are likely to abscond the jurisdiction of the Court, or if there is no parent/guardian/agency that can provide them with adequate control and supervision. Upon entry into detention, all youth are administered basic mental and physical health screens to identify needs and ensure their safety. Daily life in the Detention Center includes a focus on education with residents receiving structured instruction provided by the Allen County Educational Service Center in accordance with Ohio Department of Education standards. Non-denominational church services are provided on a weekly basis with participation being voluntary. The Detention Center's primary objective is to provide a humane environment for youth that is safe, secure, and structured, and which meets their daily needs and encourages them, by example, to make positive changes in their lives. To achieve such, Center staff are trained in operational and programmatic procedures that includes a wide variety of interventions and modalities.
- **Residential Treatment:** A rehabilitative program committed to a philosophy of providing a comprehensive approach to individualized holistic treatment through a series of evidenced based assessments and interventions which identify and target the criminogenic needs of program participants. A youth may enter the Treatment Program only by dispositional order of the Court after having been adjudicated to be a delinquent child for having committed felony level crimes. Residents entering the Treatment Program undergo multiple physical, mental, and emotional health screens as well as risk/needs assessments to determine appropriate levels of service and interventions and to aid with the development and management of an individual case plan. Individual and family counseling services are provided by a licensed professionals who also provide group counseling services coordinated by the Center's treatment team. Interventions and programming are based on the cognitive-behavior model with a focus on modeling and reinforcing pro-social behaviors & interactions within an interpersonal framework. Highly qualified behavioral health counselors, specialists, navigators, case managers, and teachers serve as members of the treatment team providing counseling, mental/behavioral health, emotional, and educational support.
